Service and assistance dogs for combat stress

The Young Diggers Dog Squad trains rescued dogs to become Assistance Dogs to support our serving and ex-serving Australian Defence Force members who are dealing with Post-Traumatic Stress Disorders (PTSD). This unique program is helping more than just the individuals. The Dog Squad helps Defence families to better cope with the effects of PTSD and saves the lives of abandoned dogs. Throughout this program, Young Diggers provide help and practical support to enhance the quality of life for both the dog and its new owner.
